Windows 10 Superlite MPB BlastX (20H2) Us-En (x64) Pre-Activated.

MPB BlastX Windows 10 Superlite v19042.928 x64 Pre-Activated is a customized Windows 10 SuperLite build that removes unnecessary software and services to optimize a faster and smoother build.

Removed Services: – Windows Defender – Windows update – Windows backup – Windows Home Group – Windows firewall (GUI) – Microsoft Telemetry – Windows Reader PDF – Kernel Debugging – Bloatware apps – Manifest Backup (WinSxS Backup) – Windows system evaluation tool (WinSAT) – Cortana – but has kept some parts of it – search in the start menu works! and more.

Untouched Services: – Windows Media Player – IE11 – Photo viewer – Remote desktop connection – Direct play – ect,ect.

System Requirements:

– The minimum requirements to install Win 10 are the same as Windows 8 or 8.1. – Processor: 1 GHz – Memory (RAM): 2 GB – Minimum space: 16 GB Free hard disk space.

Install Notes:

1. Use your favorite USB app to create a bootable usb drive 2. Need to prepare your computer driver before installing this build. 3. After installing, restart the computer about 3-4 times to optimize it.

Installation will more faster if this ISO has Office 2019 in it.

For my needs i would like to have defender, firewall, homegroup. But otherwise seems good.

I have a request.. I have used many lite versions of windows 10 from operakin and ghostpectre fastest was operakin still I am not satisfied as there are some things which you guys do not remove and keeps the window heavy, I you can imagine there must be millions of home users of windows using it on single pc or laptop for personal use without any remote desktop or server client stuff and without windows media player as well as internet explorer and powershell etc. we single system users using a home system for personal net surfing or entertainment purpose or for lite office work we dont need such stuff can you please make a liter version or I should say the lightest version without all extra stuff like networking or remote access etc it will also feel safe to use such windows. thank you.

Its actually very fast, would have been perfect for tablets if only the accelerometer works and the touch keyboard wasn't removed. Tried it on my old teclast tablet, rotation doesn't work and you'll need a physical keyboard for any input. Hope you'll release a version that caters to tablet users as well. Thanks, you guys are amazing.

Windows 10 Xtreme LiteOS 10 (2104) 21H1 SuperLite (x64) Multilingual Pre-Activated [F].

Nexus LiteOS 10 is based on Windows 10 tweaked edition, especially to improve gaming performance in low end PCs.
