## Best Way to Move Netflix Video to External Hard Drive.

Most Netflix users find, none of their downloads is visible and playable within Netflix app after moving them to the external hard drive. Why? Because while the platform allows users to download Netflix movies to view offline, there's a limit set in place which prohibits users from copying the downloaded contents: the downloaded content can only be watched on the device you downloaded it on. Consequently, you can take these folders away, but you have to put them back exactly the way you found them when you want to play the videos. Otherwise, playing those videos as normal is out of the question, even though what you really meant is to free up your space, rather than to copy them.

Sure, in case you really need to free up your computer, you can delete the original downloaded content and re-download those videos on the external hard drive. But for most people, this way is too much of a hassle. Fortunately, things changed thanks to the coming out of Netflix Video Downloader. Read on the following text to get a professional video downloader for Netflix to download any video from Netflix as MP4 files, so that you can feel free to move them to other devices, including external hard drives.

Tool Required: Netflix Video Downloader.

Armed with the most advanced video downloading core, Netflix Video Downloader stands out from numerous recording software. It is definitely the most powerful video downloader for Netflix users, as it empowers users to download any movie or TV show from Netflix at lightning-fast speed with several subtitles and audio tracks retained. With the help of such a smart tool, you can download Netflix video to MP4 format and move to any of your devices effortlessly.

How to Save Netflix Video Forever.

Netflix, a leading video streaming service in the world, always provides numerous TV shows & movies for its users. However, when enjoying the moment on Netflix, some of us will encounter the expired or unavailable prompts, which catch us off guard. For example, "This title can no longer be watched offline". That should be tiresome when the downloaded content becomes unviewable or removed. So how on earth can we avoid this situation and save Netflix video forever? Luckily, the following will exactly show you the answer.

Limitations on Netflix Downloads.

Before we get down to the problem, let's look at Netflix's download limits.

1. Download Expired: This download needs to be renewed.

The downloaded Netflix content can not be kept on your device forever, even if you've downloaded offline. Some titles are available for offline viewing for a few weeks, some only for 48 hours, which depends on the specific settings on Netflix. Though lots of content can be renewed by simply clicking the "Renew Download" button, there're still some titles that allow only a fixed number of downloads. In this case, you can only stream them online.

2. Unavailable: This title can no longer be watched offline.

Netflix will automatically delete those content you've downloaded for a long while but did watch yet. In this case, you will no longer be available to download plenty of movies offline for watching at any time.

3. Your Membership is canceled.

After canceling your Netflix plan, at the end of your current billing period, any of your Netflix downloaded titles will be unavailable to watch anymore. This should be a common rule on most media streaming services.

A Way to Save Netflix Video Forever.

Above we can see that there are some limits on Netflix downloads which will hold us back to keep Netflix movies & TV shows forever. Beyond that, Netflix also prevents us from transferring the Netflix offline downloads to some other devices for enjoying. Then, if you intend to fix all these limitations on Netflix, here we will recommend you to use a powerful program: Netflix Video Downloader, which will help you download any Netflix movies & TV shows to a widely-used video format, MP4 format.

What's Netflix Video Downloader.

It's an outstanding video helper which stands out from numerous recording software. Featured with the most advanced video downloading core, Netflix Video Downloader supports downloading any movies or TV shows from Netflix to MP4 in HD (up to 1080p / 720P) output quality with several audio tracks and subtitles preserved. With the help of such a smart program, you can save all of your Netflix content forever effortlessly.

How to Keep Netflix Video Playable After Canceling the Subscription?

Can I download Netflix video and watch it offline after my subscription ends?

No, if you cancel the Netflix subscription, your account will remain on your plan until the end of the payment period. After the paid period ends, your account will no longer have access to the streaming content. It means that you are saying goodbye to a huge number of Netflix original TV shows like Black Mirror, Orange is the New Black, Stranger Things, movies, and documents. And you will lose the content you added before, and are not able to play the downloads on any associated devices.

There are many reasons why you want to cancel your Netflix subscription, whether you are going to save your money every month, or are switching to another streaming video service like Amazon Prime Video, Hulu, Disney Plus, Apple TV Plus.

Here is how you can cancel your Netflix subscription.

How to cancel your Netflix subscription?

Step 1: Head to the Netflix app or open it up in your web browser.

Step 2: Click on your account icon at the top right corner of the page and select Account .

Step 3: Under the Membership & Billing section, you can click on Cancel Membership, then you will be taken to a new page, where you can cancel your membership or downgrade your current plan.

Step 4: Click on the Finish Cancellation button to stop your subscription.

Once you have canceled your Netflix subscription, you will still have the access to your Netflix account until the end of the current billing period. If you have a Netflix gift card or promotional balance left on your account when you cancel, you will still be able to stream until the balance runs out.

It is easy to cancel the subscription on your computer or mobile app. Now, let's go back to what we talked about at the start of this article: how to save your Netflix downloads and keep them playable on your computer ?

The only feasible way forward, is by using the third-party software, the Netflix Video Downloader, to download your favorite Netflix TV shows or movies to digital MP4 and MKV formats on your computer, then you can save the downloaded videos on your local drive, or transfer them to your USB Drive, SD card for offline viewing on other more portable device, without needing to worry your account is about to expire.

Netflix Video Downloader.

✓ Download Netflix movies, TV shows to MP4 and MKV ✓ Download Netflix videos with HD (1080p and 720p) quality kept ✓ Support downloading subtitles and audio tracks ✓ Support fast multi-stream and multi-video downloading ✓ Smart search for Netflix movies, TV shows, documentaries ✓ Modern, clean and user-friendly interface.

Here is how to download Netflix video to MP4 on the computer and keep them forever on your local drive.

Step 1: Install Netflix Video Downloader.

Download and install Netflix Video Downloader on your computer.

Step 2: Customize the Download and Account settings.

Run Netflix Video Downloader, then click on the Setting button at the top right corner of the main interface, on the popping up window, you can set the video format to MP4 or MKV, and video quality to High, Medium or Low. Lower quality requires less storage space and takes less time to download, Higher quality, up to 1080p or 720p requires more storage space and takes more time to download. And you can change the output folder to save the downloaded Netflix videos.

Step 3: Copy and paste the video URL or search preference videos.

Open Netflix on your web browser, then copy the video URL and paste it in the search box of Netflix Video Downloader. This Netflix video download also supports searching for movies and TV shows on Netflix by name or title.

Step 4: Start downloading Netflix TV shows and movies.

Click on the Download icon, and the program will start downloading the Netflix videos to the output folder you have chosen. After the downloading process is complete, you can click on the History at the top right corner to find the well-downloaded Netflix videos on the local drive.

If you are an individual who wants to save the Netflix videos on your computer forever and enjoy the Netflix videos offline at home, the Netflix Video Downloader is perfect and specific for your needs. You can download the trial version for a sample test!
