WiFi Driver Windows 10: Download, Update, Fix Driver Issue [MiniTool News]

The WiFi driver for Windows 10 is used for the Windows 10 wireless network adapters. It makes the wireless adapter work properly on your PC. This post introduces how to download, install, uninstall, reinstall, troubleshoot Windows 10 WiFi driver. For more computer tricks and free utilities, you can go to MiniTool official website.

This post teaches you how to download and install WiFi driver in Windows 10, how to update WiFi driver in Windows 10, how to uninstall and reinstall wireless network adapter driver in Windows 10, etc. Check the details below.

WiFi (Wireless) Driver for Windows 10 Download and Install

Normally the WiFi driver is automatically installed for the wireless network adapter on your Windows 10 computer.

If the WiFi driver is missing or the network adapter is not working well on your Windows 10 computer, you can manually download and install the Windows 10 WiFi driver on your PC. Check how to download and install WiFi driver in Windows 10.

One way is to press Windows + X, select Device Manager to open Device Manager in Windows 10. Expand Network adapters, right-click your wireless network adapter device, and select Update driver. Click Search automatically for updated driver software to search for the computer and internet for the latest WiFi driver. Alternatively, you can also select Uninstall device, then restart your computer to automatically install the new version of the WiFi driver.

If the first way doesn't work, you can also go to the official website of your wireless adapter to find and download the WiFi driver file on your PC and double-click the file to run the installation.

Alternatively, you can also install some free driver updater software on your PC to automatically detect and install driver updates.

You can go to Dell drivers and downloads website or run a Windows Update to download, install latest driver updates of your Dell computer or other Dell devices.

How to Find WiFi Driver in Windows 10.

To check the WiFi driver name and version in your Windows 10 computer, you can follow the steps below.

Press Windows + X and select Device Manager to open it. Expand Network adapters, right-click your wireless adapter, and select Properties. Click the Details tab and select Hardware Ids under Property to check the wireless network adapter driver name and version.

Tip: If you want to find and check Windows 10 WiFi driver folder, you can go to Windows 10 driver location to search for the wireless driver folder.

This post introduces Realtek USB wireless LAN utility and Realtek wireless LAN driver download, update and troubleshooting guide on Windows 10.

How to Update, Uninstall and Reinstall Windows 10 WiFi Driver.

The WiFi driver in Windows 10 needs to be updated to fit the new versions of the wireless adapter in Windows 10. If the WiFi driver gets outdated, you can go to Device Manager, expand Network adapters, right-click the wireless adapter, and select Update driver to update it. To uninstall and reinstall the Windows 10 WiFi driver, you can select Uninstall device, and restart your computer to reinstall it.

Alternatively, you can also update to a new version of Windows 10 to get the outdated drivers also updated. To update Windows 10, you can click Start -> Settings -> Update & Security -> Windows Update -> Check for updates.

How to Fix WiFi Driver Windows 10 Not Working

If you meet WiFi connection issues in Windows, you can follow the guide above to update or reinstall the wireless network adapter driver in Windows 10 or check how to troubleshoot internet connection problems to fix WiFi issues in Windows 10.

Intel Software License Agreement.

The terms of the software license agreement included with any software you download will control your use of the software.

INTEL SOFTWARE LICENSE AGREEMENT.

IMPORTANT - READ BEFORE COPYING, INSTALLING OR USING.

Do not use or load this software and any associated materials (collectively,

the "Software") until you have carefully read the following terms and

conditions. By loading or using the Software, you agree to the terms of this

Agreement. If you do not wish to so agree, do not install or use the Software.

LICENSES: Please Note:

- If you are a network administrator, the "Site License" below shall
- If you are an end user, the "Single User License" shall apply to you.
- If you are an original equipment manufacturer (OEM), the "OEM License"

shall apply to you.

SITE LICENSE. You may copy the Software onto your organization's computers.

for your organization's use, and you may make a reasonable number of

back-up copies of the Software, subject to these conditions:

1. This Software is licensed for use only in conjunction with Intel.

component products. Use of the Software in conjunction with non-Intel.

component products is not licensed hereunder.

2. You may not copy, modify, rent, sell, distribute or transfer any part.

of the Software except as provided in this Agreement, and you agree to.

prevent unauthorized copying of the Software.

3. You may not reverse engineer, decompile, or disassemble the Software.

4. You may not sublicense or permit simultaneous use of the Software by.

more than one user.

5. The Software may include portions offered on terms in addition to those.

set out here, as set out in a license accompanying those portions.

SINGLE USER LICENSE. You may copy the Software onto a single computer for.

your personal, noncommercial use, and you may make one back-up copy of the.

Software, subject to these conditions:

1. This Software is licensed for use only in conjunction with Intel.

component products. Use of the Software in conjunction with non-Intel.

component products is not licensed hereunder.

2. You may not copy, modify, rent, sell, distribute or transfer any part.

of the Software except as provided in this Agreement, and you agree to.

prevent unauthorized copying of the Software.

3. You may not reverse engineer, decompile, or disassemble the Software.

4. You may not sublicense or permit simultaneous use of the Software by.

more than one user.

5. The Software may include portions offered on terms in addition to those.

set out here, as set out in a license accompanying those portions.

OEM LICENSE: You may reproduce and distribute the Software only as an.

integral part of or incorporated in Your product or as a standalone.

Software maintenance update for existing end users of Your products,

excluding any other standalone products, subject to these conditions:

1. This Software is licensed for use only in conjunction with Intel.

component products. Use of the Software in conjunction with non-Intel.

component products is not licensed hereunder.

2. You may not copy, modify, rent, sell, distribute or transfer any part of the Software except as provided in this Agreement, and you agree to prevent unauthorized copying of the Software.

3. You may not reverse engineer, decompile, or disassemble the Software.

4. You may only distribute the Software to your customers pursuant to a written license agreement. Such license agreement may be a "break-the-seal" license agreement. At a minimum such license shall safeguard Intel's ownership rights to the Software.

5. The Software may include portions offered on terms in addition to those set out here, as set out in a license accompanying those portions.

NO OTHER RIGHTS. No rights or licenses are granted by Intel to You, expressly or by implication, with respect to any proprietary information or patent, copyright, mask work, trademark, trade secret, or other intellectual property right owned or controlled by Intel, except as expressly provided in this.

OWNERSHIP OF SOFTWARE AND COPYRIGHTS. Title to all copies of the Software.

remains with Intel or its suppliers. The Software is copyrighted and.

protected by the laws of the United States and other countries, and.

international treaty provisions. You may not remove any copyright notices.

from the Software. Intel may make changes to the Software, or to items.

referenced therein, at any time without notice, but is not obligated to.

support or update the Software. Except as otherwise expressly provided, Intel.

grants no express or implied right under Intel patents, copyrights,

trademarks, or other intellectual property rights. You may transfer the.

Software only if the recipient agrees to be fully bound by these terms and if

you retain no copies of the Software.

Download ASUS WiFi Driver.

If the Wi-Fi connection of your ASUS computer is not working properly, or if you want to keep it in good condition, you should update your wireless adapter driver.

To update your ASUS WiFi driver.

The following are two methods that can help you update the driver for the wireless adapter on your ASUS computer.

Method 1: Download the driver from the official ASUS website.

You can get the driver for your wireless adapter from the official ASUS website. To do so:

- 1) Go to the official ASUS website , then search your computer model .
- 2) Go to the driver download page for your computer, then download the correct and latest driver for your wireless adapter.
- 3) Open the downloaded file and follow the on-screen instructions to install it on your computer.

Method 2: Update your wireless adapter driver automatically.

If you don't have the time, patience or skills to update your wireless driver manually, you can do it automatically with Driver Easy .

Driver Easy will automatically recognize your system and find the correct drivers for it. You don't need to know exactly what system your computer is running, you don't need to risk downloading and installing the wrong driver, and you don't need to worry about making a mistake when installing.

You can download and install your drivers by using either Free or Pro version of Driver Easy. But with the Pro version it takes only 2 clicks (and you get full support and a 30-day money back guarantee):

- 1) Download and install Driver Easy .
- 2) Run Driver Easy and click the Scan Now button. Driver Easy will then scan your computer and detect any problem drivers.
- 3) Click the Update button next to your wireless adapter to download the latest and correct driver for it, then you can manually install it. You can also click the Update All button at the bottom right to automatically update all outdated or missing drivers on your computer (this requires the Pro version — you will be prompted to upgrade when you click Update All).
