Fortnite online is a free fantasy survival shooter with a cartoon style. The combination of monsters scary in their appearance and humorous moments is the hallmark of this amazing 78xs online entertainment. Players will be transported to virtual spaces full of enemies. The moment you fight them, the game turns into a third-person shooter.

So what exactly unfolds on your screen when you play Fortnite for the first time? Controlling your character, you enter into hot battles with various nasty creatures that come in huge crowds. But you will have the opportunity to prepare for these fights. The thing is that the world here is arranged in such an interesting way that your actions depend on the time of day. During the day you are engaged in the construction and strengthening of defensive fortifications, as well as prepare various traps for the hideous creatures that will crawl out after the sunset. And as soon as night falls, monsters storm you in full force.

When that happens, it is better to be in a safe place, and not to wander somewhere in open areas, because your enemies are the strongest at this time and will destroy anyone who shows imprudence. If you don't want to tremble with fear every time another day comes to an end, you'd better supply yourself with a good arsenal of weapons. Shoot annoying beasts mercilessly and don't forget to refill your stock of ammunition once in a while. Don't leave the slightest chance for the evil creatures!

The gameplay includes both a single player company and a joint game. To more effectively fight the invasion of enemies, players often create alliances and clans. Here you can find reliable companions and work together with them to ensure common victory. You will see, it will be even more interesting! Enjoy Fortnite online and discover what else is there in store for you in this wonderful game!
