16 Top Instagram Followers Trackers [+Free Tracking Tool]

Over time you can build up a large number of followers on Instagram. You may not be in the realms of Selena Gomez or Cristiano, both of whom have over 120 million followers. But it can be difficult for even a casual Instagram user to keep track of who has followed and unfollowed them.

The native Instagram app does not provide easy ways to manage your followers and keep track of who follows and unfollows you. As a result, developers have created many apps to provide an enhanced interface to assist with managing your followers.

Many of these Instagram followers trackers have similar names and almost identical capabilities. Some focus more on Instagram statistics. We have previously looked in more detail at those apps that provide insight into your Instagram analytics.

Most of the apps we look at here are simple (and free). They can make the life of anybody with more than a few followers decidedly more relaxed.

Instagram Followers Tracker.

1. Follower Analyzer (Instagram)

Follower Analyzer provides you with relevant analytics about your Instagram followers. You can see who has unfollowed you and who is not following you back, track new followers, find mutual friends and view fans. You can view which followers have never liked or commented on your posts and those who have always liked or comment on your friends' posts. You can see your top liked and top commented statuses, and people

who are often tagged in your posts.

An optional premium purchase allows multiple account sign-ins, an unlimited profile analyzer, and removes your ads.

2. Followers & Unfollowers Analytics for Instagram (WowMaking)

This app makes following and unfollowing people extremely easy. You can use their insta tracker to find out a range of analytics about your Instagram account. The app includes ads and in-app purchases for the more advanced features.

You can discover your followers and unfollowers, find ghost followers, discover which of your audience is real, rather than mere bots, and learn which of your posts are the most successful.

You can easily monitor and manage the popularity of your posts, examining how your audience reacts to your shared content.

3. Followers for Instagram! (Component Studios)

You can use Followers for Instagram to discover who has followed and unfollowed you, who isn't following you back, and who you aren't following back.

You can access the main features for free, but there are a few in-app purchases, such as showing blocked Instagram followers, deleted comments and likes of your followers, a Perception upgrade pack, an Involvement upgrade pack, and a Monitoring upgrade pack.

It is user-friendly, and you can follow and unfollow people from within the app. You can use it to find and remove any fake followers who have slipped onto your list.

4. Followers Insights for Instagram (MonoMosaic)

This is another favorite app, with more than 150,000 people giving it a 5-star rating, with an overall grade of 4.5.

Although you get some features for free, you do have to pay extra for a range of more premium features.

The app allows you to:

Discover the followers you have gained and lost
Learn who has blocked you
Unfollow people who have unfollowed you
Keep track of your most loyal followers
Monitor multiple Instagram accounts
Discover your spies, potential spammers, and inactive users
Shout-out to your best followers.

The app does include extensive advertising.

5. Followers Tools for Instagram (CC Soft)

Followers Tools for Instagram provides you with a wealth of information to help you better manage your Instagram account. Like most of the apps covered here, you can get a basic level of functionality for free (although there are ads) and then buy additional capabilities as an add-on.

In the core app, you can follow, unfollow, block and unblock your followers without limits. You can also set it to auto-unfollow with a separate list. You can also keep track of all of your new follows, new followers, lost followers / unfollowers, and lost follows/unfollows. You can also see who you have blocked, as well as who has blocked you.

The app also provides plenty of statistics, such as your total number of posts, likes, comments, followings, and followers, along with trends.

One of the premium features is photo/video analysis. This includes stats about your most and least liked media items according to likes and/or comments.

Another premium feature focuses on user engagement. This provides data on who your most and least active supporters are regarding likes and /or comments. It also offers you a list of ghost followers, who you can quickly unfollow.

6. FollowMeter for Instagram (BeakerApps)

FollowMeter for Instagram has an attractive interface to help you manage your Instagram followers. It will provide you the following insights for free:

number of followers gained
number of followers lost
number of non-followers
your most and least liked pictures and videos
your total likes
your total comments
your average likes
your average comments.

If you make an optional premium purchase, you will be featured in the app's Discover section, for all of its users to see (and hopefully follow).

7. Ghost Unfollowers for Instagram & Fake I.G. Clean (Prakash Desai)

You can use this app to remove your ghost followers – lurkers who remain inactive on Instagram and don't partake in any engagement. Ghost accounts may be either created by people or social bots. They do nothing to help the performance of your Instagram account. Often scammers generate ghost accounts with fictional profiles.

You can use this app to monitor your last 100 posts from followers who don't interact in any way.

You can also use the app to track and delete your Instagram unfollowers. You can carry out mass unfollows, up to 60 users per hour.

8. Reports + Followers Analytics for Instagram (Mobile X)

Reports + offers a range of features to enhance your Instagram experience in its free version. These include:

Key account analytics Track your follower gains and losses Track your post-performance Track engagement Optimize and schedule your posts
Determine who your best Instagram fans are and which of your friends liked your posts much Discover your unfollowers.

You can gain additional account information if you subscribe to a premium add-on.

9. Tracker for Instagram (Appyfurious LLC)

Tracker for Instagram allows you to track gained and lost followers. You can monitor how well your posts perform, your most liked posts, as well as your most commented photos and videos.

You can also use Tracker for Instagram to track follower engagement.

Although the app is free, you can pay for premium access (\$US9.99 per month) which gives you access to additional insights, such as your most favorite media posts, your "stalkers," ghost followers, blockers, best likers, and best commenters.

It might be worth checking the reviews for the app before you download it, as users are polarized – the most common ratings are five stars and one star.

10. Tracker for Instagram Followers & Unfollowers (Quadro Tools)

This app's name, Tracker for Instagram Followers & Unfollowers, is a good description of what it does. It allows you to find out about the people who follow you (or have recently unfollowed you). Reviews of this app are also polarized – with 878 people giving a 5-star review, but 383, providing a 1-star rating. You will probably want to try it out first before committing to an in-app purchase.

Like most of these apps, you will have to endure ads.

It provides a detailed insta report of your followers, unfollowers, secret admirers, ghost followers, stalkers, likes and analytics. The statistics include details on your popular posts (likes and reposts), followers / unfollowers, comments, likes, profile views, and more.

11. Unfollow for Instagram - Unfollowers & Fans (Unfollow App)

This is a simple app where you can track people who do not follow you back on Instagram. It also lets you unfollow people, either individually or in batches.

Although this app is more straightforward than many other apps here, it does precisely what it says. You can find your unfollowers, or unfollow people yourself, simply with a few clicks.

12. Unfollow Users for Instagram (Xiuxin Soft Team)

This is another simple free app that does what it advertises. The home page shows the people who you follow but who do not follow you back. You can unfollow them directly from the app, either one person at a time or in batches of ten.

13. Unfollowers & Ghost Followers – Follower Insight.

Unfollowers & Followers Analytics for Instagram is obviously popular with its users, averaging 4.5 on Google Play, with more than 40,000 people giving it a 5-star rating.

It has a comparatively strong feature list, including

Listing your unfollowers, ghost followers, mutual followers, recent unfollowers The opportunity to be included in a global shout-out A chance to be part of a media shout-out Ability to add users to a whitelist Can follow/unfollow from within the app.

The app is free but ad-supported.

14. Unfollowers & Ghost Followers for Instagram (Follow Cop)

Somewhat confusingly this app is listed on Google Play as Unfollowers & Ghost Followers for Instagram but referred to in the page copy (and on the app itself) as Follow Cop.

It aims to be a comprehensive Instagram management tool: "With Follow Cop, be a cop of your Instagram profile."

It is a free ad-supported app. Its features include:

Your non-followers Ability to make global shout-outs Can support up to 3 Instagram accounts People you don't follow back Recent unfollowers Ghost followers Can create a whitelist of your favorite users, so you don't accidentally unfollow them Your top likers and commenters Speechless likes Can unfollow up to 20 people with a single click (with no hourly limits) Ability to filter fake followers, fake following and mutual followers.

15. Unfollowers for Instagram Lost (Elegant)

The free Unfollowers for Instagram Lost helps you to find your unfollowers (both nonfollowers and lost followers) on your Instagram account. The app detects and highlights those people you follow who don't follow you back. You can also set it to highlight the people you forget to follow back.

16. Who Unfollowed (Webilisim)

Who Unfollowed is a free app, but you can pay to promote yourself in the app to all 200,000 users.

You can find who unfollowed you on Instagram for as many accounts as you want. It will also list your recent unfollowers and your ghost followers. It provides you with some customization options so you can personalize it how you want it.

Unlike some of the other apps here, there are no hourly limits. You can unfollow as many people as you choose in one session.

3 Apps That Can Help You Identify Who Unfollowed You On Instagram

One annoying thing about Instagram is the painful reduction in followers from time to time.

Considering how difficult it is to build a sizeable following on Instagram, losing followers frequently could be a very painful experience for users of the photo-sharing app.

One of the main reasons people follow others on Instagram is so that they could get a follow back or maybe see their newest photos they post on Instagram.

After getting the follow back, most people try to be smart by unfollowing some of the accounts they had earlier followed so that they could reduce the accounts they follow as compared with the accounts that follow them.

An account with more followers than it follows has more power and authority than an account with fewer followers.

In this article, we shall focus on 3 apps you could use to identify those who unfollow you on Instagram so you could also unfollow them or take any other step.

In this Article:

Followers Assistant.

Searching for an application which can help you grow your Instagram following with just a few clicks?

Well, then this application is meant for you. Primarily, the Followers Assistant App is meant to help grow your Instagram following.

It provides you with a comprehensive data of those who followed and unfollowed you within a given period.

You then have the option of either unfollow those who unfollowed you or follow those who followed you.

Followers.

This application is very easy to use and provides users with the ability to see their new followers, those who have unfollowed them in recent times as well as people who blocked them within recent times.

The Followers App also allows users to identify their comments that have been deleted in recent times. It also provides users with the list of their most viewed and liked posts on Instagram.

However, this app comes with premium packages from 1.99\$ upwards to unlock some of its features.

You can download on both iOS and Android.

Unfollowers On Instagram.

This app is very similar to the other ones described above as they all perform similar functions.

However, the Unfollowers On Instagram app is primarily aimed at helping users discover those who unfollowed them on the photo-sharing app.

One thing about this app, however, is that it doesn't have a much beautiful user interface as compared with the earlier ones.

It, however, provides other options such as likes, views and reactions over specific periods. It also provides data on comments that have been deleted. All these come at a small fee of 2 \$.

Conclusion.

Gaining followers on Instagram is no joke. Most times, it is a 'follow for follow' way of generating followers that help people grow their account.

SidesMedia is a fantastic service for TikTok & Instagram growth service that claims to provide real TikTok & Instagram followers with a high retention rate.

As such, when you lose followers under some tricky condition, it becomes a concern. The apps discussed above are some of the best apps that can help you track unfollows and many other hidden stats on your Instagram account.

Since these apps are third-party applications, you need to read and understand their terms and conditions before using them. If you know of any other applications that serve the same purpose, kindly name them in the comment box below.
