"download xbox receiver for windows driver",

I bought a wireless gaming receiver for my Xbox 360 controller this week, so I can use it to play compatible games on steam. (If anyone wondering, it was one of these)

Whilst it's a cheap knock-off, it works just fine so long as you know how to install it. Thankfully I read the comments first and didn't even attempt to use the supplied CD. I'm reproducing the comment here just in case I ever need to reinstall it in future and can't find the comment.
