Diversity.

ATTENTION: This map is a quite old now. During its peak of popularity, I received almost no credit from YouTubers for my work. As a result of this behaviour, the majority of map makers have left the game. This could have been prevented by YouTubers sharing their audience with their content creators.

If you record this, please link my name in your video descriptions and include the download link:  
<https://www.planetminecraft.com/project/diversity-multi-genre-map/> (the minecraftforum link is dead)

Description: Diversity is a unique take on the CTM genre. As usual, you have to complete the monument by collecting the coloured wool.

However in Diversity, each wool is obtained by finishing a completely different Minecraft map genre.

Rules: 1. No breaking, placing or crafting any items unless instructed or implied. 2. No changing gamemodes or difficulty. 3. No typing commands like TP, give, spawnpoint, etc.

Recommendations: - Default Texture/Resource Pack - Brightness: High.

Multiplayer: If you want to play Diversity as multiplayer, I recommend 2 players. 3 maximum.

Diversity Genres: - Adventure - Arena - Trivia - Parkour - Escape - Labyrinthian - Dropper - Survival - Puzzle - Boss Battle.

Diversity 2 Map 1.8.8.

Return to the world of Diversity – an epic multi-genre challenge map for single or multiplayer! PC Gamer's #2 Minecraft Map of all time has spawned a sequel. Now with over 2 million downloads, Diversity 2 has quickly become Curse.com's #1 most downloaded map, overcoming the original Diversity map as well as achieving the Guinness World Record for most downloaded Minecraft project. Diversity 2 is a unique form of map. Similar to the CTM style, you are tasked to complete a monument. However, in the Diversity series, the monument blocks are obtained from completing different genre-specific levels.

This time, a team of builders were enlisted and the end product is really quite special. We hope you enjoy the map. Diversity 2 also proudly features custom skins from over 650 members of the Minecraft community!

Screenshot.

The Rule : Don't type commands. Diversity 2 is a very complex map that works only if the map is unaltered from the command blocks placed. Do not change your gamemode, unless absolutely necessary.

Requirements :

Minecraft 1.8.8 Minimum 9 chunks Render Distance Vanilla Server (Multiplayer) Adjust server.properties (see below)

Recommendations :

Default Texture/Resource Pack Brightness: Full/Bright Clouds: Off 1-3 players 64-bit Java Render Distance: 10-16 Chunks 4GB RAM or higher allocated to Minecraft.

Server : For Multiplayer, you MUST have command blocks enabled. In your server.properties file, make sure you have this:

```
enable-command-block=true allow-nether=true allow-flight=true max-build-height=256 spawn-npcs=true spawn-animals=true spawn-monsters=true.
```

We recommend you keep the game to 2 players, but 3 could work. This map is NOT compatible with Bukkit. Our apologies.
