Completing the CAPTCHA proves you are a human and gives you temporary access to the web property.

What can I do to prevent this in the future?

If you are on a personal connection, like at home, you can run an anti-virus scan on your device to make sure it is not infected with malware.

If you are at an office or shared network, you can ask the network administrator to run a scan across the network looking for misconfigured or infected devices.

Another way to prevent getting this page in the future is to use Privacy Pass. You may need to download version 2.0 now from the Chrome Web Store.

13 Best VPN Services with Lifetime Subscription.

DISCLOSURE : This post includes affiliate links, which means we receive a commission when you make a purchase.

To protect your privacy when you are online at home or at a public place (such as an airport or a café), you may want to consider using a Virtual Private Network (VPN). This guarantees that data transmissions from your network to the open Internet are encrypted.

Another advantage of using a VPN consists of being able to access social websites, VoIP applications, P2P services, and other types of media content that may be restricted by your ISP.

In this article we have put together a list of 13 VPN providers for you to choose from— so pick your poison!

1. PureVPN: 2-Yr Subscription.

PureVPN offers a self-managed VPN network with more than 2,000+ servers in 140+ countries. PureVPN protects your Internet incoming and outgoing traffic (including emails, instant messages, personal files, financial information, and even VoIP communications) with up-to 256-bit AES-256 encryption.

Additionally, this VPN service shields you from online advertisers, marketers, and even search engines that show ads based on your online surfing habits or physical location.

Features include:

PureVPN packs a huge pool of 300,000+ IPs with 2,000+ servers in 140+ countries. PureVPN now offers 10 Multi-logins instead of 5. Encrypt data with self-engineered proprietary software. Receive live support 24/7. Encrypt data with self-engineered proprietary software. Secure your connection on public Wi-Fi hotspots. Utilize unlimited bandwidth & one-click functionality.

OFFER : PureVPN is celebrating its 12th Anniversary this year and they have come up with an excellent offer. On purchase of any plan, a user can gift 12 monthly accounts to their loved ones.

2. Ivacy VPN: Lifetime Subscription.

Ivacy VPN is a powerful VPN service with 1000+ servers in 100+ locations worldwide, that enables you protect yourself against hackers, spyware, and government surveillance. It also allows you to unblock and enjoy buffer-less HD streaming of your favorite movies, TV shows, as well as sports events. It also helps you to bypass geo-restrictions and embrace internet freedom.

Features include:

Supports fast uninterrupted P2P file-sharing with complete anonymity. Anonymize your online connections against spammers and identity thieves. Get a dedicated VPN add-on for Kodi. Helps you defeat ISP speed throttling and Port blocking. Access region-blocked content anywhere in the world. Enjoy amazing Ivacy features on a range of compatible devices. Allows you to log in on 5 devices simultaneously.

OFFER : The coupon code fossmint20 will give you additional 20% off on 5 year plan.

Ivacy VPN Offer.

3. KeepSolid – VPN Unlimited: Lifetime Subscription.

KeepSolid, an Ukraine-based security firm, offers a solution called VPN Unlimited that has over 1000+ high-speed servers across 70+ locations all over the world.

They use the OpenVPN protocol (with AES-128 and AES-256 encryption) on Android and Windows platforms, and IPsec IKEv1 on macOS and iOS (with AES-128). Additionally, it is important to note that VPN Unlimited allows multiple devices under the same account through their extended VPN protection offer.

Features include:

Secure your data (hidden & encrypted) on public Wi-Fi connection. Unlimited traffic bandwidth with high-speed connection. Fast server switching and app operating. Blocks ads, malware, & tracking systems with DNS Firewall.

4. HideMyAss! VPN: 2-Yr Subscription.

With servers in more than 190 countries, HideMyAss allows you to easily choose a virtual location from a list and that's it – your data transmissions are encrypted that easily.

One of the most distinguishing features of this service is that it allows multiple devices under the same account and yet it does not slow down your Internet connection.

Features include:

Secure and protect your private data from hackers & government officials. Use HideMyAss on internet-enabled TVs & game consoles. 1100+ VPN servers in over 290+ locations in over 190 countries.. Access geo restricted content from anywhere. Access web securely on up to 2 devices at once. Premium support over internet, chat & phone.

5. VPNSecure: Lifetime Subscription.

With presence in 48 countries, VPNSecure takes pride in being able to provide the most appropriate solution on their customers' Internet privacy needs, including circumventing website censorship or filtering.

Another important feature that's worth highlighting is the many payment options they accept: Perfect Money, Bitcoin, PayPal, Credit Card, Payza, and Cashu.

Features include:

Access to geo location blocks on your favorite streaming networks. Protect and secure your data from hackers. Hides your location & IP address. Supports torrents. Allows you to connect 5 devices simultaneously. Get unlimited bandwidth. Protects against DNS leak fixes, kill switches & more.

6. NordVPN: 2-Yr Subscription.
