Download Audio from YouTube Online – 5 YouTube to MP3 Online Converters.

In addition to desktop software like MiniTool YouTube downloader, YouTube to MP3 online converters also enable you to extract audio from YouTube. With YouTube to MP3 online converters, you can rip audio from YouTube without installing any software.

Most of these converters are free, but not all of them are easy to use. And, most YouTube to MP3 online converters are full of ads and confusing to use (normal for free software).

Here, we list 5 common YouTube to MP3 converters. You can choose a suitable one to download audio from YouTube online.

#1. YTMP3.

Ytmp3.cc is straightforward, uncluttered, and efficient. It lets you convert YouTube videos to MP3 and MP4 video files. To download audio from YouTube, you need to paste your link into the blue search box, press Convert and press Download to save YouTube to MP3 on your PC.

This online YouTube to MP3 converter can only convert a video of not more than 2 hours in length.

#2. GenYouTube.

GenYouTube can help you convert YouTube to MP3 and you can even get started from the YouTube video. It offers 3 options to download music from YouTube.

Visit the GenYouTube site, paste the URL to the video and press Enter . View YouTube video, and add the gen word right before the word of YouTube, for instance, <https://www.genyoutube.com/watch>. GenYouTube gives you the option to download FireFox, Chrome, and Safari extensions to rip audio from YouTube.

GenYouTube supports few other audio and video formats, too, including 3GP, WEBM, MP4, and M4A. Also, it can handle a number of downloads simultaneously. The only downside is that there are many different advertisements on this site.

#3. Y2mate.

Y2mate allows you to download thousands of videos from YouTube for free. Whether you own a PC or a tablet, you can convert and listen to your song in different formats and can customize it for your device.

Y2mate is streamlined and effortless to use. You can download audio from YouTube without registration. All you need to do is to enter the URL or a couple of keywords, select the video and download it.

Unfortunately, there are many ads on the free YouTube to MP3 online converter. And this converter doesn't work with any other video sharing websites like Vimeo or Dailymotion.

#4. Flvto.

Flvto allows you to download video and audio from YouTube. Flvto offers high-quality conversion and supports MP3, MP4, MP4 HD, AVI, and AVI HD formats.

To YouTube video, you should paste the desired YouTube link into the orange search box, select format by clicking the red drop-down arrow, and click CONVERT TO button. After that, you can send the converted file to your email.

Flvto indeed lets you extract audio from video, but its conversion speed is slow and there are some ads.

#5. CONVERTO.

Converto.io is intuitive to use and it converts files quickly. This YouTube downloader is a completely free web-based video/audio converter,

requiring no special software for its execution.

However, you'll notice that there is a collection of small advertisements in the center of this site, and this converter will occasionally open two annoying (but harmless) spam tabs.

To download audio from YouTube, you need to paste the YouTube URL into the blue search box, select MP3 or MP4, click the red settings icon to change quality, cut MP3, edit ID3 tags or filename, and press CONVERT to start downloading. After converting, you need to download the audio file as soon as possible since the download link remains valid for 24 hours only.

Comparison Among 2 Ways to Download Audio from YouTube.

Is It Legal to Download Audio from YouTube.

We have covered how to extract audio from YouTube. But, we have to face one thorny issue. Is it legal to rip audio from YouTube videos?

There is no doubt that you can legally download your own personal YouTube videos, public domain, and non-copyrighted videos. But you can't legally convert and download copyrighted videos without the owner's permission.

A spokesperson for Google sent me the following statement:

Well, the answer to this question will depend on your location and the cyber laws of the country. Let's look at how US law views the downloading of YouTube videos.

In the United States, you can certainly download and convert YouTube to MP3 and save them on your device to listen to them. However, you can't share these MP3 files with anyone else as you don't own the copyrights of the video.

Final Words.

We have covered 2 ways on how to download audio from YouTube. We highly recommend you to use MiniTool uTube Downloader because the best YouTube to MP3 converter can download and convert YouTube to MP3, MP4, WAV, and others with high quality.

I hope all of you can successfully get the audio file of your favorite YouTube video, and enjoy listening to it offline at any time.
