Adblock Plus for Chrome's special features.

Adblock Plus blocks all annoying and intrusive advertisement, including pop-ups, pre- and mid-roll video ads on Youtube, tracking, and malicious malware.

How our ad blocker for Chrome works.

Once you download Adblock Plus for Chrome, it will appear in your browser menu. It will automatically filter out all annoying and intrusive ad content.

Adblock Plus is configurable and can be adjusted to add whitelists and change types of filters through the Settings option .

Supporting websites and creators.

Adblock Plus comes by default with Acceptable Ads enabled, though this can be turned off easily at any time. By using the Acceptable Ads feature, you are still blocking annoying and intrusive ads, but allowing some nonintrusive advertisement. This allows content producers to receive monetization for their work and helps create an environment of fairness and sustainability for user, advertiser, and creator alike. Learn more.

Adblock Plus for Chrome.

Block all pop-ups and other annoying ads while browsing the internet. It is an extension for the Chrome browser.

Adblock Plus is an open-source extension for Google Chrome that blocks intrusive ads, pop-ups, and banners on webpages. When activated, the program blocks ads on every site you visit, with the only exception being webpages that have been added to a whitelist by you or by the program. Adblock Plus also lets you surf the web anonymously, which is practical if you are trying to avoid having your internet cookies collected by companies wishing to advertise to you.

Features.

The latest version included a feature that allows users to whitelist specific pages, or YouTube videos with a simple click, instead whitelisting the

entire website. \

Other Systems.

Adblock Plus is also available for Microsoft Edge [here](#), and other systems [here](#).

Adblock Plus pour Chrome.

La version actuelle d'Adblock Plus pour Chrome est la 3.9.5 , sortie le 09/09/20 . Cette mise à jour ajoute la portion de code freeze-element et modifie la ligne hide-if-matches-xpath qui permet de bloquer plus d'éléments. Il n'y a pas eu de mise à jour importante depuis le mois de juin 2020 avec une version visant à donner de meilleures informations aux utilisateurs, avec notamment des notifications informant des dernières modifications de l'extension ou des éventuelles corruptions de données. D'autres modifications avaient été faites en début d'année 2020 avec l'ajout d'autorisation d'un site directement depuis le bouton d'application, et la possibilité de bloquer ou autoriser une page précise d'un site plutôt que le domaine entier. La partie Paramètres a également été entièrement revue dans une mise à jour parue fin 2019.

Vous n'aimez pas la publicité sur Internet ? Vous allez adorer Adblock Plus ! Il s'agit d'une extension open source pour Google Chrome servant à bloquer les publicités intrusives et les bannières publicitaires encombrantes. Il dispose désormais de moutures pour d'autres navigateurs que Chrome.

Adblock (Chrome Extension) for Windows.

For people who are easily bothered by pesky online advertisements, Adblock is a popular and effective Chrome extension that filters out any ads that hamper your browsing experience.

The perfect chrome extension.

Inspired by the original Adblocker Plus made for Firefox, Adblock was first released in 2009. Today, it is both the most downloaded Chrome extension and one of the most widely-used ad blockers on the web, with over 200 million downloads.

Adblock is an efficient and easy-to-use application in a world where people want their content unfettered by spam and irrelevant advertising. It filters everything promotional: Facebook ad, Google ads, flash ads, pop-ups, banners. Any kind of ad you can imagine. Adblocker is an essential tool used to streamline general internet use.

With this powerful extension, you can tweak your browsers into showing only the content you want to see. There are filters and settings to allow pop-ups on certain pages. This applies to sites with firewalls that insist on disabling ad blockers, or sites that need to use flash. In spite of its request for access to your history and web data, it does not monitor any of your personal information.

It's easy to install and completely free. Every internet user should take advantage of Adblock's smooth and efficient operating system.

Where can you run this program?

Adblock is an extension that can be used on Chrome, Safari, Firefox, and Opera web browsers.

Is there a better alternative?

No. While there are a lot of good ad blocking extensions and applications on the market, it's hard to find one more widely-used and well-received than Adblock.

Easy Ad Blocker extensions for Chrome.

Easy Ad Blocker is one of the best ad blockers, and it can automatically block many different kinds of ads. This version of EAB operates as a browser extension for Chrome, so it stays in the background as you surf, and it's as effective as other less user-friendly ad blocking extensions.

What people are saying.

“I just wanted something that would remove the neon colors that distracted me from learning a coding language on a good website for free. The website looked messy with all the ads. I got this extensions and reloaded the website. Instead of the ads, there was just empty white space! It felt like a breath of fresh air. Finally not suffocated by ads! Now I can learn Swift and Java on this website with a better learning environment. Thank you. I love how good this extension is and that it's free. ”

Nicole Margulis.

“Awesome! Thanks so much for helping me focus on my reading and watching stuff on you tube without being interrupted by those nonsense ads. ”

Fasil Demsash.

“I wanted to watch anime on sites which bombard you with ads like KissAnime and GoGoAnime and this blocked all of them. Very helpful. Thank you.”

Chiemezie Nwamba.

“Awesome! It Works! It also gets rid of pesky ads on Roblox, no Builder's Club needed!”

Squibber018.

“This is the best ad blocker I have ever used so far. I don't know why it's so underrated.”
