file type Trainer.

file size 2.8 MB.

last update Monday, October 19, 2015.

Report problems with download to

In order to unpack this file after download, please enter the following password: trainer .

For unpacking files we recommend using a free software - 7-Zip.

Unpack the contents of the archive, run the trainer then the game. During the game you can use the following keys:

NUMPAD3 - Cyber ??OZ.

NUMPAD4 - maximum accuracy.

NUMPAD5 - maximum attack hacking.

Last update: Monday, October 19, 2015 Genre: Action File size: 2.8 MB.

Note: The cheats and tricks listed above may not necessarily work with your copy of the game. This is due to the fact that they generally work with a specific version of the game and after updating it or choosing another language they may (although do not have to) stop working or even malfunction.

Extra care should be taken with modifications, trainers, and other things that were not created by the game's developers. In this case the possibility of malfunctioning or even damaging the game, which may necessitate reinstalling the game, is particularly high.

2011/07/30 - Tutorial to setup a multiplayer game [[click for more](#)] For those who experienced some difficulties with creating or joining multiplayer games, here comes a small tutorial to setup your router.

E.Y.E: Divine Cybermancy for Windows.

E.Y.E: Divine Cybermancy is a first person role-playing shooter set in a strange cyberpunk world.

The influence of Deus X is clear in this indie game, which combines action with a great deal of player choice. It also has conspiracies and a dark tone, but the comparisons don't go much further.

Your character is a member of 'Secreta Secretorum'; samurai monks with advanced technology, cybernetics and psionics. Humanity is threatened by strange forces that are turning civilizations against each other. When the game starts, you are thrown into this scenario, and have to work out the rest for yourself.
