PMDG Releases MD-11 Update.

PMDG has released new versions of the PMDG MD-11 for FSX and FS2004 during the night, Friday. These updates serve to bring both versions to parity, and to add some new features and fixes since the FSX release in October and the FS9 release earlier this week.

Both platforms are now up to version 1.10.0051.

The PMDG MD-11 is a highly detailed simulation of the venerable McDonnell Douglas MD-11 aircraft that entered service in the early 1990s, setting an all-new standard for the use of technology in airline transport aircraft. Using advanced fly-by-wire technology and flight control logic, the MD-11 flies similarly to modern Airbus wide-body airliners that were introduced around the same time. PMDG has modeled the full range of automation and advanced flight control systems, making the PMDG MD-11 easier and more enjoyable to fly than even our own 747-400. A user-friendly tutorial is included to help newcomers to the McDonnell Douglas aircraft learn the ropes quickly and easily, without having to read the flight manual! (But just in case, PMDG has included more than 1400 pages of flight manual so that you can prove to yourself that this simulation really **is** a full-featured simulation of the airplane!)

Whether you like airliners that are a joy to hand-fly or full-featured, in-depth systems simulations, the PMDG MD-11 has the whole range of simulator pilots covered, whether you fly in FSX or FS2004. For more information, visit <https://pmdg.com/>.

Don't forget. We have a huge selection (over 24,000 files) of free mods and add-ons for MSFS, FSX, P3D & X-Plane in the file library. Files include aircraft, scenery, and utilities All are free-to-download and use - you don't even need to register. Browse on down to the file library here.

Ian Stephens.

Ian Stephens is a flight simulation industry expert with over 20 years of experience and also has a keen interest in aviation and technology. Ian spends a lot of his time experimenting with various simulator packages but has a love for Microsoft Flight Simulator X because of the huge selection of add-ons available. However, Ian also has copies of Prepar3D and X-Plane installed.

PMDG DC-6B - Feel Free Airline.

wir, die FeelFreeAirline sind eine virtuelle Airline, auch gerne kurz als "VA" bezeichnet, die es Simulatorpiloten ermöglicht den Linien- und/oder den Charterverkehr einer realen Airline nachzuempfinden, bzw. zu simulieren.

Dabei steht der Name als Programm, "feel free", also "fühle dich frei" und fliege in unserer Airline mit nur einem Mindestmaß an Regeln.

Category: Flight Simulator 2004 - AFCAD Files LGKO - Kos Airport, Greece.

File Description: This file makes FS2004 use the correct taxiways and gates at the default scenery of LGKO, Kos Airport. It enlarges the east apron to the actual size found at a photo at airliners.net. It was created with AFCAD 2.11. It contains enough parkings for many small and medium and prop airliners, some military fighter parkings at the west apron and five GA parkings at the northern end of east apron. There is enough space for one airliner up to the size of an MD11.

File Description: iFDG McDonnell Douglas MD11 V1.5.

iFDG is proud to present the McDonnell-Douglas MD-11. The aircraft model includes most of the standard features including animated control surfaces, flaps, flaperons & thrust reversers. Plus a full lighting configuration, highly detailed, reflective textures. Opening Passenger Doors Opening Cargo doors, flexing wings, wingviews, Compressing gear, Dynamic shine and realistic FDE made with the help of a real MD11 Pilot.

This example is D-AERZ and is in the latest livery of LTU, This aircraft was retired in 1998 to be replaced by new Airbus A330 aircraft, it then passed onto Swissair as HB-IWU.

MD11 1.5 brings many updates and fixes to include new door configurations, new textures, improved aircraft structures, and simplified texture arrangement. Visit our website and forum here for more information.
