Impact minecraft cheat.

Version: Impact supports Minecraft 1.15.2, 1.14.4, 1.13.2, 1.12.2, 1.12.1, 1.12, and 1.11.2.

Impact minecraft cheat is a multihack for minecraft and is useful for PVP, ESP, Flyhack, anti-afk and much much more. it is a very versitle and popular minecraft cheat which personally I would recommend and have used many times before. It is Impact minecraft cheat mainly used in the anarchy part of minecraft as you will be manually banned in servers such as hypixel really fast but in low pop servers it is fully undetected and pretty useful.

Impact minecraft cheat.

To install the cheat go to the mega link and run the installer, Once you have it will give u a popup.

You can then choose your version of minecraft and the version of impact, Make sure that launch directory is set to your .Minecraft folder. Once you have this done click “install”

Once installed load up minecraft and click right shift on your keyboard to open the menu.
