Dumb and Dumber Fan-edit (Released)

I'm currently working on some custom edits of a few movies and have run into a few snags, and was hoping to get some tips.

I'm working on a semi-fan edit of Dumb and Dumber; I didn't care much for the unrated edition and stupidly got rid of my original DVD upon buying said new version, luckily I was able to find a torrent of the theatrical version

Now, here's my plan; I found some clips on youtube of some short scenes not available on most releases;

Lloyd returning with change to find the little old lady has vanished and stole his wallet and beer (only available on Australian R4 DVD)

Lloyd almost getting hit buy a car while walking into the convenience store (apparently aired on TBS, but never remember seeing it. Replaces scene of Lloyd leaving store swinging restroom key around)

I'd like to try and add these scenes into the original cut to create a quasi special edition. I have all the 'pieces' of the movie in place thanks to VirtualDub, but unfortunately the frame rates don't match up when trying to combine them, and changing the fps rates causes sync errors with the audio. Any advice?

So basically you're looking to convert PAL 24fps to 29.97?

I'd change the title of this thread to reflect what you actually are looking to do, and/or maybe ask a how to do this in the technical questions thread?

Good news Everyone!

I was able to accomplish my goal! What I did was encode all the files into an ISO file, then rip/convert using VirtualDub and Kramer pop I was able to splice it together! It's not perfect, but given the limited resources I had to work with, I'm happy with the results. If anyone's interested I can put it up on utorrent. I think it makes a nifty alternative to those who don't care for the unrated version, and enjoy the novelty of seeing scenes that are very rare, and don't really affect the narrative.

I also did a similar project with the TV movie 'Castaways on Gilligan's Island'. All torrents I found omit a scene I forgot about until I came across the clip on youtube, and was able to successfully splice it back into the movie.

What's the resolution?

I'm interested in this custom "full uncut" version of yours! Could you please provide it as torrent or a link from where I can download it.

Author ClassicGamer81 Time 8-Mar-2020 10:25 AM Post link.

Sure! I'll look into uploading it somewhere and making a post on fanedit.org, since it 'technically' is one!

Any suggestions on good uploading places?

Do you have Google Drive account? I think it allows to upload and share large files. Another possibility could be this: <https://www.sendtransfer.com/> if your edit is under 10GB long.

Have you uploaded this to somewhere? I read the posts from fanedit.org but couldn't find any reference to Dumb & Dumber.

I agree. The theatrical version was way better than the uncut explicit version. I would definitely watch your repaired theatrical version when you're done. Thank you!

Author beardedgeek Time 31-May-2020 4:32 PM Post link.

luckily I was able to find a torrent of the theatrical version ☐

Where did you find the torrent of the theatrical version? Is it 720p or 1080p?

Author iamgoldenyellow Time 8-Sep-2020 10:30 PM Post link.

C'mon now, man! I love your idea, but you can't go telling everyone you did it, then don't put any link to it, nor any link on fanedit like you said. that's just torture!

Good News Everyone!!

I am back, I apologize for the extended absence! Damn RL for getting in the way! LOL.

I am in the process of uploading Dumb and Dumber, (in addition to a few others if interested) to a newly-created Mega.nz account, I'll most likely make access password protected, just to be awesome like that! If interested PM (or is it DM now? Damn Mandela Effect :p) for the link!

Wishing you all a good day, and good mental health!

Been patiently waiting for your return so I will take a link for sure. PM or DM away. Thank you in advance. PS - don't forget the password!

Review :

HILARIOUS! ‘I like it a lot’

My top two favorite movies of all time are Goonies and Dumb and Dumber . Rumors of sequels for each have surfaced throughout the years. Every time it happened, I would cringe at the thought of my favorite, oh so perfect movies being ruined by the lack of continuity, creativity, and disregard to the spirit of the original. I also dreaded the inevitable poor rehashing of priceless moments that worked so marvelously the first time around causing those moments to lose their sentimental, humorous, and/or memorable value. Sequels just seem to disappoint over and over again.

When I saw the trailer for Dumb and Dumber To , I was very skeptical and decided I wouldn't watch it. I then got past my knee-jerk reaction and took a moment to consider who was going to be portraying my beloved characters (super important) and that the same people would be handling “my baby” (Farrelly Brothers) and quickly realized that this was going to be a great sequel. Because when thinking about the first Dumb and Dumber and having seen Jim Carrey and Jeff Daniels’ sound comedic technique in action and how nicely they complimented each other – it was truly magical and based on these facts this, of course, would also have to be a pretty darn magical movie.

Fast forward to last night. I went and saw the movie (totally sober, might I add) and was delighted by how f*n fantastic it was! I laughed out loud so many times and was thrilled with what this talented bunch was able to pull off. I was relieved and have nothing but good things to say about it. I will share these words with you, but will do so in a slightly different manner by combining what I felt about it and by using this forum to thank all of those wonderful people that made this beautiful thing and did not disappoint.

Thank you, Wonderful People, for maintaining Dumb and Dumber’s comedic, jovial, and obscenely immature integrity. You were able to so perfectly depict where Lloyd and Harry would be 20 years later. I totally believed that Lloyd would pull such an overly long and ridiculously inappropriate prank on his best friend. I totally believed that he was capable of staying in character for such an extended period of time and only occasionally slip by cracking a smile or a slight giggle here and there because that’s who Lloyd is. He is committed. When he sets out to do something, there is no stopping him

I totally believed Harry would, without fail, visit his best friend week after week (over one thousand weeks, actually!) at the institution to provide his catatonic friend some companionship, updates on his life and the world, candy, and some care better left for the professionals. Of course he would do this. He is Harry and Harry is loyal. We learned this about him the first time around. It warms my heart and tickles the heck out of my funny bone when I think about the scenes that are sprinkled throughout the movie showing exactly what I just described.

Thank you for staying true to the spirit of these characters and their absurd lives. You delivered a hell of a sequel because you so obviously were thoughtful and careful when crafting this film and the love you put into it is evident. I believe others in your line of work who are tasked with such a feat should take a few pages from your play book.

And, to cap it all, a right-hand man who breaks shocking news after shocking news (demanding a high pay increase, saying he has relieved his employer of a bunch of millions, stating that he has decided to marry his daughter who, incidentally, has been made pregnant by Oscar the former driver.)
