How to Download and Install a New Version of XenCenter.

This article describes how to download and install a new version of XenCenter.

Note : Refer Additional Resources section for links to the latest XenCenter versions.

Instructions.

Obtain The Latest Update Through XenCenter.

XenCenter allows you to automatically check for new versions. To configure these alerts:

Go to Tools > Options > Updates .

Under Automatically check for XenCenter updates, select Check for new XenCenter versions .

To manually check for the new versions for XenCenter:

On the left pane, click Notifications .

Click Updates. The Updates screen is displayed.

Click Refresh .

For more information about upgrading XenCenter, refer to Citrix Documentation - Updating XenCenter.

Update to the latest version of iTunes.

Learn how to get the latest version of iTunes on your Mac or PC.

On your Mac.

If you update your Mac to macOS Catalina or later, you can access your iTunes media library in the Apple Music app, Apple TV app, Apple Books app, and Apple Podcasts app. To manually back up, restore, or sync your iPhone, iPad, or iPod touch, use Finder.

If you can't update to the latest version of macOS.

You can update to the latest version of iTunes (up to iTunes 12.8).

Open the App Store on your Mac. Click Updates at the top of the App Store window. If any iTunes updates are available, click Install.

On your PC.

Depending on the version of iTunes that you have, here are a few ways to update.

If you downloaded iTunes from the Microsoft Store.

Versions of iTunes from the Microsoft Store update automatically when new versions are released.

If you downloaded iTunes from Apple's website.

Open iTunes. From the menu bar at the top of the iTunes window, choose Help > Check for Updates. Follow the prompts to install the latest version.

If Check for Updates isn't an option in the Help menu, then you downloaded iTunes from the Microsoft Store.

Learn more.

Learn how to update your iPhone or iPod touch to the latest version of iOS, and iPad to the latest version of iPadOS. Learn how to update your Mac.

iTunes features might vary by country or region.

## Panopto (Legacy)

Panopto for Android lets you access all of your organization's video content from your Android tablet or phone. View HD video presentations, lectures, training courses and events. Search inside your videos to find any keyword or topic.

- Use this application with Panopto on-premise server version 8.7.0 or lower.
- Panopto cloud customers, use new application: <https://play.google.com/store/apps/details?id=com.panopto.mobile>.

Learn anywhere • Watch a lecture, presentation, or training session from your Android tablet or phone • Search within a video to jump right where you need to be • Read closed captions as you watch the video • Navigate videos by tapping on slides, chapters, or transcript • Upload videos from your Android tablet or phone\* • Record meetings or classes in rooms equipped with Panopto Remote Recorder from your Android tablet or phone\*\*

With Panopto's video platform, you can transform how your organization learns and communicates: • Sales and Marketing can record and webcast presentations, demos, and events. • Corporate Communications can deliver recorded or live messages from executives. • Learning and Development can deliver online training to employees around the world. • Engineering teams can record meetings and share best practices. • Support teams can record tutorials and visually demonstrate solutions to customers. • Faculty can record lectures, lab demonstrations, medical simulations, and more. • Students can view lectures on the go, or record their own assignments for instructor review. • IT staff can integrate Panopto with existing LMS, CMS and identity systems.

Requirements This application works with Panopto server 5.6.0 and above.

You can check the server version from the 'support' menu of your Panopto server's web interface. Please contact your administrator for any additional questions regarding your organization's current version.

About Panopto Panopto creates software that enables organizations to record, webcast, search, and share all of their video content and presentations. Panopto's video platform is currently in use at Fortune 500 companies around the world, and is the fastest growing lecture capture solution at leading universities.
