## Best Casino Games for Windows 10 PC and Mobile.

If you like games of chance, casino games for Windows 10 can be a fun way to pass the time. These games may not match the excitement a trip to Vegas might have, but they do offer a nice range of casino challenges ranging from card games to slots.

Many of these games focus on a single casino game, often with online components where you play against other gamers. A few offer multiple gaming options, much like you would find in a brick and mortar casino. Colorful graphics and challenging gameplay are also characteristic of these Windows 10 games, plus you avoid the risk of losing real money.

We have searched the Windows Store high and low for the best casino games available. Let's take a look at what we have found!

### AE Blackjack Online.

AE Blackjack Online, just as the Windows 10 title suggests, is an online game of blackjack. The game has support for Facebook accounts or you can play as a guest. Facebook accounts receive bonus chips and game progress follows you if you need to switch out devices.

Available for Windows 10 Mobile, AE Blackjack Online starts you out with \$1,300 in chips with additional chips available through in-app purchase and as daily bonuses. Gameplay follows suit with your traditional game of blackjack with options to join the first available game, walk around the tables to find a game or create a game.

There is a chat feature and the ability to send novelty gifts to other players (hamburger, drink, etc.). If there are no other gamers around, AE Blackjack Online allows you to play single player games. While there was an occasional hiccup in connecting to AE's server, overall this free casino game presents itself as a simple and enjoyable card game.

### Crazy Casino.

Crazy Casino is a collection of casino games laid out in slot machine fashion. Available for Windows 10 Mobile, this free casino game offers blackjack and poker games, as well as a traditional game of slots.

Altogether, Crazy Casino offers you ten video gambling machines that include five slot machines, two blackjack games and two poker games. Each machine is progressively unlocked as your winnings grow and the betting limits increase with each machine.

There are also mini-games available and a daily lucky ticket where you can earn bonus coins. Crazy Casino starts you out with 100 coins with the option to buy additional coins through in-app purchases. Crazy Casino isn't a very complicated casino game, but does offer an easy way to spend a little time in front of an assortment of video gambling games.

### Simons Slots.

If slots is your cup of tea, Simon's Slot is your Windows 10 game. The free casino game is available for Windows 10 PC and Mobile and delivers a huge variety of slot machines from cat themed machines to vampire themed machines. All together there are 30 one-armed bandits to choose from.

Each machine has a different bet minimum and you only download the slot machines you want. You earn experience with each spin and some of the machines do require you to reach a certain experience level before they become available.

Bets can be self-regulated, with the higher bets opening additional payout lines on the machines. If you are in the mood to sit back, relax and let the machine do all the work you can set the game to automatically spin. Simon's Slots tracks your statistics to see how lucky or unfortunate you are with the casino game.

If you are looking for a slightly unconventional game of slots, Simon's Slots includes two additional modes that are memory games where you must remember highlighted squares after they spin. If you tap on all the correct squares, you earn your winnings.

Additional features for Simon's Slots includes free credit bonuses every 15 minutes, Facebook support and daily/consecutive login bonuses for free credits. Graphics are bright and colorful, the machine selection respectable and overall Simon's Slots offers a fun casino game for Windows 10 PC and Mobile. The only thing missing is the bucket of quarters and the free drinks.

### Zynga Poker – Texas Hold 'em

Zynga Poker – Texas Hold 'em is a free, online game of poker that is available for Windows 10 PC and Mobile. This Windows 10 casino game offers casual poker games, as well as competitive tournaments. Support is in place for Facebook login, logging in with a Zynga account or playing as a guest. Account login does allow you to synchronize gameplay between devices, as well as with online play.

Zynga Poker starts you out with \$10,000 in poker chips with additional chips available through in-app purchase and daily bonuses. Gameplay follows the traditional Texas Hold 'em style of poker. You can join poker tables at random or create your own game.

The game is paced quickly, with each turn timed to avoid players taking a break from the action and stalling the game's progress. Animations and graphics are sharp with plenty of casino color. While the challenge of gameplay is dependent on part on the player's abilities, you still have the challenging of managing your bets and predicting the next cards to go in play.

Overall, Zynga Poker - Texas Hold -em is a solid poker game for Windows 10 and arguably the best casino game for Windows 10. It is a great option when you have a few minutes to spare and it holds up nicely when you want to spend more time gaming.

If you have tried your luck with any of these Windows 10 casino games, let us know what you think of things in the comments. There are plenty more options available in the Windows Store and if we have missed your favorite casino game, feel free to share your recommendation in the comments as well.

Bendy and the Ink Machine for Windows.

After being invited back to visit the old animation studio, you left years ago you find an empty office. Venture through the sepia corridors and find out where everyone is.

Run as fast as you can.

This indie gem took the world by storm and sprouted many fan songs and parodies, much like the FNaF series. You play as Henry Stein, a retired animator who is visiting the studio where you once worked. Wander through the halls, where the ink comes alive, as you discover logs revealing more of the story.

It's set in a sepia color tone, and you explore the enormous old building where you experience the spooky but smooth graphics. All the characters within the game are creatively designed to look inky with a dash of horror. There are a variety of items you can find, but the axe is the most useful tool out of all of them.

Each chapter involves a series of puzzles, and you'll revisit the corners of each room trying to solve them. The intro to Bendy is short, as you switch the ink machine on relatively soon. However, once he's awoken, the puzzles start to drag on and may grab your attention for lengthy periods of time.

These riddles are challenging, you may spend well over an hour in one chapter attempting to piece them all together. The reason they take so long is due to the lack of hints available. If you get stuck, you'll need to watch a walkthrough online to find answers.

Where can you run this program?

Bendy and The Ink Machine is available for Windows 10, Mac OSX Sierra, and Linux.

Is there a better alternative?

No. Bendy and The Ink Machine is a great game to play with a unique graphics style that truly immerses you. Similar options that'll send a shiver down your spine include the FNaF series.

Our take.

Playing Bendy and The Ink Machine will have you sitting on the edge of your seat as the ink drips down evermore. It's tricky at times, but worth the experience.

Should you download it?

Yes. It's a great game to play if you're looking for a bit of suspense. It's filled with surprises and spookiness.
