Hamilton. An American Musical.

Sophistication, humour, sensitivity... These are the words that often come to mind when describing Henry Mancini's music. 23 years after his death, he is still seen as a major and influential pop composer. No doubt because, in addition to his glossy and light works for which he is renowned (notably *Breakfast at Tiffany's* and *The Pink Panther*), he also knew how to display the complexity of his musical language in more tormented compositions.

Hailed by critics of classical music as well as amateurs of the electronic genre, Nils Frahm's talent has brought harmony between the two worlds for the last ten years. Whether he plays on a church organ or a synthesiser fitted with effect pedals, the German pianist is always looking forward, and that's what makes him so appealing.

To celebrate 20 years since the release of her film "The Virgin Suicides", Qobuz takes a look back at some of the top musical moments from the films of Sofia Coppola, like her collaborations with French duo Air or Thomas Mars from the band Phoenix.

A Star Is Born Soundtrack.

Hamilton. An American Musical.

To celebrate 20 years since the release of her film “The Virgin Suicides”, Qobuz takes a look back at some of the top musical moments from the films of Sofia Coppola, like her collaborations with French duo Air or Thomas Mars from the band Phoenix.

To celebrate his 50-year-long career, Jean-Michel Jarre has released the edifying compilation Planet Jarre, a collection of 41 tracks that highlight the path set by the pioneer of electronic music. It’s a wonderful opportunity to look back over the five decades during which the Frenchman expressed himself as an artist, a mad scientist, a visionary, a sucker for record breaking spectacles, an activist and now the torchbearer for artists struggling for fairer pay online.

As Keith Flint, The Prodigy’s lead singer, has just passed away, Qobuz looks back on the history of the big beat, an intense movement that blew up musical boundaries, led by three major players: The Prodigy, The Chemical Brothers and Fatboy Slim.
