

facebook apps pc free download

Facebook for Windows 8.1.

Facebook for Windows 8 takes everything you love about the social networking site and puts it right on your computer to cut down on issues between the site and your operating system.

With billions of users around the world, Facebook ranks as the top social networking site today. It lets you post status updates, share photos and videos with friends, connect with other users and do dozens of other things. It's a must have for anyone who lives a significant distance away from their loved ones and anyone who wants to stay connected with their friends and family.

The problem with Facebook is that it's available in several different versions. Each of those versions works best with a specific operating system. Facebook for Windows 8 allows you to use all the features of the site on any computer that uses this operating system. As long as you can remember the email you registered with and the password you chose, you can log into your account from any other computer or device too.

Facebook for Windows 8 is a new app that lets you access all the great features without opening a browser first. You can simply click on the app, log in and access your account in seconds. It takes only a few minutes to download the app. You can then log in with your account details or create a brand new account. As the official Facebook app, it provides you with complete and total access to all the features of the full site.

This means that you can share links to news articles, post photos saved on your computer, let friends and family view videos you created and change your status updates. You'll also have the chance to visit the pages of your loved ones and pages belonging to your favorite actors and companies too. It cuts down on the time that you spend opening a web browser, waiting for the page to load and then waiting for the site to recognize your user details.

As with all apps though, Facebook for Windows 8 is not without its faults. The app makes it harder to access any messages you receive, and you may need to download the Facebook messaging app to read and send messages. There are also some issues relating to account settings. Some users have a harder time changing their privacy settings and other settings via the app.

Facebook Android App.

Play on PC with BlueStacks – the Android Gaming Platform, trusted by 500M+ gamers.

Overview Game Features How to Play.

Page Modified On: June 14, 2021.

Facebook 12+

Connect with friends, family and people who share the same interests as you. Communicate privately, watch your favorite content, buy and sell items or just spend time with your community. On Facebook, keeping up with the people who matter most is easy. Discover, enjoy and do more together.

Stay up to date with your loved ones: • Share what's on your mind, announce major life events through posts and celebrate the everyday moments with Stories. • Express yourself through your profile and posts, watch, react, interact and stay in touch with your friends, throughout the day.

Connect with people who share your interests with Groups: • With tens of millions of groups, you'll find something for all your interests and discover more groups relevant to you. • Use the Groups tab as a hub to quickly access all your groups content. Find relevant groups based on your interests with the new discovery tool and recommendations.

Become more involved with your community: • Discover events happening near you, businesses to support, local groups and activities to be part of. • Check out local recommendations from your friends, then coordinate with them and make plans to get together. • Raise funds for a cause that's important to you, mentor someone who wants help achieving their goals and, in the event of a local crisis, connect with other people to find or give supplies, food or shelter.

Enjoy entertainment together with Watch: • Discover all kinds of content from original shows to creators to trending videos in topics like beauty, sports, and entertainment. • Join conversations, share with others, interact with viewers and creators and watch together like never before.

Buy and sell with Marketplace: • Whether it's an everyday or one-of-a-kind item, you can discover everything from household items to your next car or apartment on Marketplace. • List your own item for sale and conveniently communicate with buyers and sellers through Messenger.

Read our Data Use Policy, Terms and other important info in the legal section of our App Store description.

Continued use of GPS running in the background can dramatically decrease battery life. Facebook doesn't run GPS in the background unless you give us permission by turning on optional features that require this.
