iTunes (32-bit)

Apple made popular this full-featured mp3 player-organizer and now it has a new version which is available for Windows users too. iTunes is thought to be one of the most complete tools to organize and play mp3 music files and the perfect partner for your iPod Shuffle, iPod Nano, iPod touch or iPhone. No matter the iPod you have, iTunes will suit it perfectly.

With iTunes you will be able to create and edit your playlists, search for your sound collection, create CD jewel inserts using album art and song listings, copy the music in your CDs to your HD or even create and burn your own CDs.

And now it includes a video player-organizer, fully featured like its mp3 brother, so now it is more complete than ever. Now you can organize all your music, videos, podcasts, audiobooks, etc. If you have an iPod or an iPhone, you can sync it with iTunes, fast, effortless, and simple with the built-in Auto-Sync. Keep your iPod filled with all the newest additions to your iTunes library.

What's The Latest Version Of iTunes For Windows 10.

Apple's iTunes software can not only backup data from your iOS devices to computers, but it can also do much more than that. iTunes can help you stream songs from Apple Music, upload music to iCloud, convert audio from one format to another, rip music CD/DVDs, share music over the home network, burn digital music to CD/DVDs and of course, update your iOS device to the latest version.

While there are alternatives around for iTunes, most Apple device users prefer using iTunes over third-party software.

Apple regularly updates iTunes. If you have installed on your PC, you might want to what's the latest version of iTunes out there for Windows 10 and how to update iTunes to the latest version on your Windows 10 PC.

What is the latest version of iTunes for Windows 10?

The latest version of iTunes (installed from Apple or outside Windows Store) is 12.9.3 (both 32-bit and 64-bit) whereas the latest version of iTunes available on Windows Store is 12093.3.37141.0 .

How to check the version of iTunes installed on your PC?

Depending on where you got the iTunes from, there are three ways out there to check the version number of iTunes in Windows 10.

If iTunes installed from Store.

Step 1: Navigate to Settings > Apps > Apps & features page.

Step 2: Scroll down the list to see iTunes entry. Select the iTunes entry and then click Advanced options link.

Step 3: In the Specifications section, you will get the version number of iTunes currently installed on your PC.

Note that you can also repair and reset iTunes from this page.

If iTunes installed outside the Store.

If you manually downloaded iTunes setup from outside the Store (from Apple or another website) and installed on your PC, you can use this method to figure out the version number of iTunes.

Step 1: Navigate to Settings app > Apps > Apps & features .

Step 2: Scroll down the list and then click on iTunes entry to reveal the version number of iTunes.

Or.

Step 1: Type Appwiz.cpl in the Start/taskbar search field and then hit the Enter key to open Programs and Features window.

Step 2: Here, look for iTunes entry in the list. The version column displays the version number of iTunes installed on your Windows 10 computer.

How to update iTunes to the latest version?

If iTunes installed from Store.

If you have installed iTunes from Windows 10 Store, you don't need to manually check for updates as the Store app will automatically update iTunes to the latest available version when an update is available. However, if you have turned off automatic app updates, you need manually check for app updates by doing this:

Step 1: Open the Store app. Click on the three vertical dots icon (...) and then click Downloads and updates option.

Step 2: On the Downloads and updates page, click the Get updates button to check for updates and install available updates.

If iTunes installed from outside the Store.

If you have installed iTunes from outside the Store, you can manually update iTunes to the latest version. Note that Apple Software Update utility which is silently installed along with iTunes automatically checks and prompts you to update iTunes. But you can manually check if you have disabled Apple Software Update or if it's not updating automatically. Here is how to do that.

Step 1: Run iTunes.

Step 2: Click the Help menu and then click Check for updates option to check if there is an update for iTunes. If available, you will get the following dialog with the Download iTunes button. Click the Download iTunes button to open Apple Software Update dialog.

Step 3: Here, make sure that iTunes is selected and then click the Install items button to download and install the latest version of iTunes.

Looking for other versions?

macOS Windows Microsoft Store.

iTunes is going places.

Visit the iTunes Store on iOS to buy and download your favourite songs, TV shows, movies and podcasts. You can also download macOS Catalina for an all-new entertainment experience on desktop. Your library will transfer automatically to the new Apple Music, Apple TV and Apple Podcasts apps. And you'll still have access to your favourite iTunes features, including your previous iTunes Store purchases, rentals and imports, and the ability to easily manage your library.

Music, TV and podcasts.

take centre stage.

iTunes forever changed the way people experienced music, movies, TV shows and podcasts. It all changes again with three all-new, dedicated apps — Apple Music, Apple TV and Apple Podcasts — each designed from the ground up to be the best way to enjoy entertainment on your Mac. And rest assured, everything you had in your iTunes library is still accessible in each app. iCloud seamlessly syncs everything across your devices — or you can back up, restore and sync by connecting the device directly to your Mac.

Presenting Apple Music on Mac.

The new Apple Music app is the ultimate music streaming experience on Mac. 1 Explore a library of over 75 million songs, discover new artists

and tracks, find the perfect playlist, download and listen offline, or enjoy all the music you've collected over the years. And find it all in your music library on all your devices.

Apple TV. Premiering on Mac.

The Apple TV app for Mac is the new home for all your favourite movies, shows and a subscription service with original stories from Apple TV+. Watch everything directly in the app or enjoy it offline, and discover the best of what's on in the Watch Now tab. You can even pick up where you left off on any screen, across all your devices. And for the first time, 4K 3 and Dolby Atmos 4 –supported movies are available on Mac.

Listen up. Podcasts on Mac.

More than 700,000 of the best entertainment, comedy, news and sports shows are now available on your Mac with Apple Podcasts. Search for podcasts by title, topic, guest, host, content and more. Subscribe and be notified as soon as new episodes become available. And in the Listen Now tab, you can easily pick up where you left off across all your devices.

iTunes Support can help answer your questions.

Get help with syncing, updating to a more recent version of iTunes, or an iTunes Store purchase — and much more.
