What are YuGothB.ttc Error Messages?

General YuGothB.ttc Runtime Errors.

YuGothB.ttc file errors often occur during the startup phase of Microsoft Office Access 2010, but can also occur while the program is running. These types TTC errors are also known as "runtime errors" because they occur while Microsoft Office Access 2010 is running. Here are some of the most common YuGothB.ttc runtime errors:

YuGothB.ttc could not be found. YuGothB.ttc error. YuGothB.ttc failed to load. Error loading YuGothB.ttc. Failed to register YuGothB.ttc / Cannot register YuGothB.ttc. Runtime Error - YuGothB.ttc. The file YuGothB.ttc is missing or corrupt.

Program: C:\Windows\Temp\527D94AF-D053-4381-B105-0D815D53791E\amd64\_microsoft-windows-f.uctype-yugothicbold\_31b3856ad364e35\_10.0.16299.1004\_none\_b6ce0267c787e799\YuGothB.ttc.

This application has requested the Runtime to terminate it in an unusual way. Please contact the application's support team for more information.

Most TTC errors are due to missing or corrupt files. Your YuGothB.ttc file could be missing due to accidental deletion, uninstalled as a shared file of another program (shared with Microsoft Office Access 2010), or deleted by a malware infection. Furthermore, YuGothB.ttc file corruption could be caused from a power outage when loading Microsoft Office Access 2010, system crash while loading or saving YuGothB.ttc, bad sectors on your storage media (usually your primary hard drive), or malware infection. Thus, it's critical to make sure your anti-virus is kept up-to-date and scanning regularly.

How to Fix YuGothB.ttc Errors in 3 Steps (Time to complete:

If you're encountering one of the error messages above, follow these troubleshooting steps to resolve your YuGothB.ttc issue. These troubleshooting steps are listed in the recommended order of execution.

Step 1: Restore your PC back to the latest restore point, "snapshot", or backup image before error occurred.

To begin System Restore (Windows XP, Vista, 7, 8, and 10):

Hit the Windows Start button When you see the search box, type "System Restore " and press "ENTER". In the search results, find and click

System Restore . Please enter the administrator password (if applicable / prompted). Follow the steps in the System Restore Wizard to choose a relevant restore point. Restore your computer to that backup image.

If the Step 1 fails to resolve the YuGothB.ttc error, please proceed to the Step 2 below.

Step 2: If recently installed Microsoft Office Access 2010 (or related software), uninstall then try reinstalling Microsoft Office Access 2010 software.

You can uninstall Microsoft Office Access 2010 software by following these instructions (Windows XP, Vista, 7, 8, and 10):

Hit the Windows Start button In the search box, type "Uninstall " and press " ENTER ". In the search results, find and click " Add or Remove Programs " Find the entry for Microsoft Office Access 2010 14 and click " Uninstall " Follow the prompts for uninstallation.

After the software has been fully uninstalled, restart your PC and reinstall Microsoft Office Access 2010 software.

If this Step 2 fails as well, please proceed to the Step 3 below.

Microsoft Office Access 2010 14.

Step 3: Perform a Windows Update.

When the first two steps haven't solved your issue, it might be a good idea to run Windows Update. Many YuGothB.ttc error messages that are encountered can be contributed to an outdated Windows Operating System. To run Windows Update, please follow these easy steps:

Hit the Windows Start button In the search box, type " Update " and press " ENTER ". In the Windows Update dialog box, click " Check for Updates " (or similar button depending on your Windows version) If updates are available for download, click " Install Updates ". After the update is completed, restart your PC.

If Windows Update failed to resolve the YuGothB.ttc error message, please proceed to next step. Please note that this final step is recommended for advanced PC users only.

If Those Steps Fail: Download and Replace Your YuGothB.ttc File (Caution: Advanced)

If none of the previous three troubleshooting steps have resolved your issue, you can try a more aggressive approach (Note: Not recommended for amateur PC users) by downloading and replacing your appropriate YuGothB.ttc file version. We maintain a comprehensive database of 100% malware-free YuGothB.ttc files for every applicable version of Microsoft Office Access 2010. Please follow the steps below to download and properly replace you file:

Locate your Windows operating system version in the list of below "Download YuGothB.ttc Files". Click the appropriate "Download Now" button and download your Windows file version. Copy this file to the appropriate Microsoft Office Access 2010 folder location:

If this final step has failed and you're still encountering the error, you're only remaining option is to do a clean installation of Windows 10.

GEEK TIP : We must emphasize that reinstalling Windows will be a very time-consuming and advanced task to resolve YuGothB.ttc problems. To avoid data loss, you must be sure that you have backed-up all of your important documents, pictures, software installers, and other personal data before beginning the process. If you are not currently backing up your data, you need to do so immediately.

B4J Question fx.GetAllFontFamilies doesn't give all the font families.

Using fx.GetAllFontFamilies , I got the following list of font families which does not include the Source Han Sans font I installed on a Windows 10 machine (<https://github.com/adobe-fonts/source-han-sans/>):

Using java.awt.GraphicsEnvironment.getAvailableFontFamilyNames , I got the following list which is more complete:

Administrator.

fx.GetAllFontFamilies is based on JavaFX API: `javafx.scene.text.Font.getFamilies`.

I don't know why they don't return the same list. It should be simple to call your code with `JavaObject`.

Sandman.

Well-Known Member.

I made a quick diff for you, perhaps there's some common thing between the added/missing fonts that can explain it? (Like, are the missing ones installed in some other dir? Or are they in another format? Something like that.)

Help your fellow font-seekers if you think you can recognize the font. Earn some good karma by doing it :- ) Answer & Help.

Yet sometimes the images are very complex, so other users need a bit of help. If you recognize the font from the samples posted here don't be shy and help a fellow designer.

Thousands of designers (famous or not) use the image font detection system to find a font or similar free fonts from an image. Although we have the largest database of fonts, the search for a font from an image gets mixed results like the image above.
