Completing the CAPTCHA proves you are a human and gives you temporary access to the web property.

What can I do to prevent this in the future?

If you are on a personal connection, like at home, you can run an anti-virus scan on your device to make sure it is not infected with malware.

If you are at an office or shared network, you can ask the network administrator to run a scan across the network looking for misconfigured or infected devices.

Another way to prevent getting this page in the future is to use Privacy Pass. You may need to download version 2.0 now from the Chrome Web Store.

Keyboard You can use the mouse to click on cards to hold, or you may find it easier to use the keyboard: [1 - 5] = Hold/Cancel [Space] or [Enter] = Deal/Draw [T] = Trainer on/warn/off.

Trainer When the trainer is turned on, it lists the best plays and their average expected wins on the left. The CHANGE CARDS button allows you to explore the best play returns for hands that you enter. Yellow dots on the corners of the cards show the best cards to hold. The statistics on the right show your playing time, speed of play, the theoretical payback percentage of the game with perfect play, the projected payback percentage with your plays, and the cost of errors.

2x Pay To make things more fun, the game defaults to 2X PAY mode, so you get twice as many credits when you win. The trainer stats ignore the extra credits and record your wins as if they were the normal amount. If you prefer to play the traditional way, click on 2X PAY to switch to the standard 1X PAY.
