Super Smash Flash 2 for Android.

Battle your favorite characters in this action-packed game, now available on your Android mobile or tablet.

Relive your Classic Favorites.

Get to know some of the most famous game characters from the last two decades. Revisit your childhood and play around with Sonic the Hedgehog, Naruto, Mario and many more characters.

Battle characters in different arenas and play against a computer-generated opponent. Select a player based on their strengths, which are displayed on-screen when you tap on one of the many that are available. Each character has qualities that are better-suited for particular arenas, so make sure you choose wisely.

Fans created the game, so it's no surprise that the graphics have been designed to mimic old video games. Recreate the original gaming experience from your mobile phone, at no charge. Super Smash Flash 2 is completely free to download and play.

As expected, you do have to get used to the new controls. The original game was released on consoles that had more comfortable gaming controls set up. This version has its own set of touchscreen-appropriate keys. It may take some players a while to get to grips with playing a classic game on a newer device.

The game itself is quite repetitive, and it's possible to finish the entire thing in a few sittings. The creators could have built upon the battle game plot and added some new mini-games and other features. It seems like a very rushed creation, and after the initial nostalgia has worn off, it becomes quite boring.

Where can you run this program?

This program can be run on Android version 3.1 and above.

Is there a better alternative?

No. This is the only application that offers a remake of the classic game for mobile devices. If you want another classic video game, try Pokemon Dual.

Our take.

This game is ideal for avid gamers who want to play a fantastic retro game from the comfort of their Android device. The controls take some time to get used to and it lacks more gameplay options and features.

Opposites are Fun Fair!

Welcome to the first of its kind Virtual Reality children's educational gaming app- Opposites are Fun Fair! This groundbreaking app introduces your little one to the world of opposites! The educationally designed platform will take your adventurous kids into the fair, where they will play around with a guide, Noni, to Opposite games, rides, and roller coasters! Coins will be earned by visually recognizing different pairs of opposites. This whimsical seaside amusement park is full of games that challenge the knowledge of opposites and rewards with fun rides and adventures!

Parental Controls and sustained engagement with a reward after task will keep kids coming back again and again. Supports and strengthens all areas of fundamental learning in a virtual, visual, and experiential concept for everyone!

Based on Barbara Milne's Opposites Are Fun! book and award-winning "Opposites Are Fun!" song, this new Virtual app created by Helio, will entice your little one to go back again and again with Noni to earn coins for realistic rides and lots of fun! Barbara Milne has a background in children's music, early childhood education, and psychology from the University of Southern California. She also has over 25 years of experience as an elementary teacher and Parent Education Preschool instructor. Mrs. Milne has developed CDs, books, and collaborated with app content for the ABC Cool Kid Preschool Academy app available on all devices. Opposites Are Fun! Is a comprehensive book of 58 opposites that was created for younger and older children alike. The Opposites Are Fun Fair virtual app will entertain while teaching your little one the concept of opposites!

The Opposites Are Fun VR app is optimized for mobile phones. We aim to support all manufactured VR devices. If you have issues with any visual display on your headset, please check if the Cardboard setting is engaged correctly. You can also scan a QR code (located where?) to automatically enable the setting for your headset.

For better experience use headphones. Virtual Reality does not work on all devices. Please remember to check if your device is compatible!

How to Play: - Easy control, simply look around to explore the fair. - Look upward for the menu - From the menu, you can walk or automatically go towards gallery, song, games, and rides.

In CatSpin you can help the hero Neko by controlling him through the world! And not only that; you can control the world itself!

By rotating it round and round, using either the virtual buttons or the accelerometer, you make sure Neko is able to get to places that he would otherwise not have been able to reach, but watch out! When you rotate, keep in mind that fire always wants to burn up, rocks always fall down and wind keeps coming from the sides; this might just do all kinds of funky stuff inside a rotating room!

- A whole new concept of playing a platform game!
- Adventure and puzzle elements!
- Virtual buttons or Accelerometer controls!
- 55 levels to unlock!
- Crisp and beautiful 2D graphics!
- Funky soundtrack and soundeffects!
- Perfect for SpeedRuns!
